OUR MISSION

Here at Sweetgrass Pharmacy & Compounding, we work hard to counter the traditional pharma model and provide you with a more personalized and accessible health care experience. We genuinely take the time to connect and consult with each patient we serve, and we are committed to and care about our greater South Carolina community. Our team of pharmacists works closely with providers and patients to customize affordable, safe, and easy-to-use medications, enabling patient compliance and efficacy. We offer private and comfortable in-store or over-the-phone counseling and support. Sweetgrass Pharmacy & Compounding makes more than medicine. **We make a difference.** Compounding is about the power of personalized medicine. **We make it personal.**

Our Core Values

"If you don't like something, change it. If you can't change it, change your attitude." ~Maya Angelou

Attitude

We are motivated, driven, and passionate for success. We maintain an optimistic outlook turning challenges into opportunities. We always support one another, showing appreciation, patience, and respect.

Customer/Patient Focus

We believe patient care and customer satisfaction are at the center of what we do every day.

Ethics

We own our behavior, keep our promises, value honesty, and embrace diversity.

Teamwork & Dedication

We believe teamwork empowers our individual strengths. Dedication to our team achieves quality solutions.

Innovation

We believe in promoting a culture of innovation and continuous improvement.

Integrity

We believe integrity is at the heart of our individual and corporate actions. When in doubt, do the right thing!

Safety & Quality

We strive to exceed industry standards for safety and performance. We believe safety is at the forefront of our decision-making.

SWEETGRASS
PHARMACY & COMPOUNDING

A LETTER FROM THE CEO

Sweetgrass Pharmacy meets the needs of providers and patients where other pharmacies fall short. My design for Sweetgrass Pharmacy was to provide specialized patient healthcare without sacrificing traditional apothecary values. We provide ophthalmologists across the state access to effective, high-quality, and safe compounded ophthalmic drops and injectables in a place that feels like home. As the only PCAB-accredited sterile retail pharmacy in the state, I am proud to employ a highly-trained clinical staff committed to providing the best level of care with cutting-edge technology. We make it personal.

Cynthia Feldman

Cynthia Feldman, PharmD, MBA
Owner/Chief Executive Officer

WORDS FROM OUR PHARMACISTS

"At Sweetgrass Pharmacy, we pride ourselves on taking care of our patients the way we would care for our own families. We believe that patient care starts with good clinical care. My team has the knowledge, training, and dedication to provide a level of patient care that is unrivaled. We are honored to have earned the reputation and trust from both our patients and providers in supplying the best-specialized patient healthcare in the state."

Courtney Jarvis, PharmD
Chief Operating Officer/Pharmacist

José Torres, Foreign Pharmacist
State and Sterile Pharmacy Technician
Director of Lab Services

"At Sweetgrass Pharmacy, we strive to make a difference in each of our patients' lives. We provide service beyond what is expected from a typical pharmacy. Our highly trained staff aims to go above and beyond to provide our patients with the best and safest care. We are so excited to offer non-sterile and sterile compounding to our community, including custom eye drops that are personalized for each patient."

Kailey Clark, PharmD
Pharmacist

"Sweetgrass Pharmacy makes patient safety our first priority. We adhere to the guidelines outlined by the United States Pharmacopoeia's Chapter <797> for compounding sterile preparations and are ranked in the top 1% of compounding pharmacies with PCAB accreditation. Our team continues to undergo training, review procedures and test ophthalmics preparations to ensure all of our products are of the highest quality. Our clean rooms and equipment are consistently tested and checked by a third party. As the Director of Lab Services at Sweetgrass Pharmacy, I'm committed to our patients' safety and wellbeing. "

PRESCRIPTION PROCESSING

- 01. Send a prescription** through e-scribe, fax, or give us a call! Sweetgrass Pharmacy will call your patient to confirm their surgery date and delivery method. If the patient does not receive a call or text within 24 hours, please have them call 843-800-7007.
- 02. Once verification is complete**, Sweetgrass Pharmacy will take your patient's method of payment.
- 03. Have your patients check their mail.** Patient Rx ships free of charge the same day and delivers to patients in 1-2 days. Patients will receive a tracking confirmation and a tracking number via text.

*For professional use only. Sweetgrass Pharmacy specializes in customizing medications to meet unique patient and practitioner needs. Sweetgrass Pharmacy dispenses only to individuals who are identified patients with valid prescriptions. The FDA reviews no compounded medication for safety or efficacy. Sweetgrass Pharmacy does not compound copies of commercially available products. References are available upon request.

WHAT PHYSICIANS ARE SAYING ABOUT US:

Here at Griffin Eye Center our goal is to bring the absolute BEST care, BEST options and SMARTEST innovations to our patients during their upcoming surgeries. We partner with only the best as our relationships touch greater than 2500 patients per year. Sweetgrass Pharmacy has made our patients lives much easier. We experience premium care from the pharmacist and teams of staff. We are always greeted with smiles! Our relationship is priceless and so is the product!

*-Griffin Eye Center, Dr. Neil B. Griffin
Myrtle Beach, SC*

Sweetgrass pharmacy has been an indispensable part of my practice as an Ophthalmologist. They are the only sterile compounding pharmacy in the Low Country, and they are instrumental in providing specialty eye drops to our patients. They are our main source when it comes to Autologous serum drops and other compounded eye drops. Their pharmacists are very knowledgeable, available and accommodating. We are very fortunate to have Sweetgrass pharmacy as part of our care team. -Medical University of South Carolina, Dr. Karen Fernandez

We love the fact that our patients can get their eye drops on time for less money. Due to the compounded cataract drops our patients can minimize their post operative procedure to one drop as opposed to three drops. Our staff does not have to worry about patient insurance not covering commercially available eye drops since Sweetgrass takes care of that. -The Eye Center, Dr. Matthew Clary
Columbia, SC

The improvement in compliance and confusion with post-op patients has been outstanding. We highly recommend Sweetgrass Pharmacy and have enjoyed working with the pharmacy alongside their staff. They have consistently gone above and beyond for our patients. The combination drops for post-operative cataract patients have significantly eased the drop burden for our patients and their families.

-Eye Center of Charleston, Dr. John Kulze III, Dr. Robert House and Dr. Sudeep Das

“Amazing customer service! Very convenient and dependable. I highly recommend Sweetgrass Pharmacy.”-Columbia Eye Clinic, Dr. H. Holland Crosswell III

After spending years searching for the best pharmacy to provide my patients with quality drops, I was grateful to have found Sweetgrass Pharmacy. When it comes to medication, especially with cataract surgery, my patients are looking for affordable cost, reliable service, and ease of use. Sweetgrass Pharmacy not only makes my patients happier, but also my staff.

-Carolina Eye Care Physicians, Dr. Kenneth Farr
Hilton Head, SC

I have used compounded drops after cataract surgery from larger pharmaceutical companies. Unlike those companies, I have experienced no rebound inflammation with the Sweetgrass compounded drops following surgery. Great product! -Beaufort Eye Center, Dr. Garrett Webster

Excellent service and product. They go above and beyond for our patients and our clinic. -Beaufort Eye Center, Dr. Jane Kokinakis

We love Sweetgrass Pharmacy because their team is very friendly and super helpful. We use the pharmacy for combo drops for our cataract surgery patients. This has been a game changer for our patients. We highly recommend Sweetgrass Pharmacy to everyone.

-Orangeburg Eye Center, Dr. James Van Hulle and Dr. Michael McMullen

Autologous Serum Eye Drops (ASEDs)

Dry Eye

Most Popular!

\$275

Autologous Serum

(10%-50%)

Varies

How it works:

- ➔ Autologous serum is obtained from the patient's blood. Once the blood is drawn, the red blood cells and clotting factors are removed, leaving only the patient's natural blood serum. This contains the same biological nutrients that are naturally found in the patient's tears. Because the serum is derived from the patient's blood, it is non-allergenic and natural to the eyes, unlike traditional eye drops.
- ➔ Our pharmacy dilutes the patient's personal blood serum with a sterile, preservative-free solution, providing a tear substitute that is unique to the patient's chemistry; therefore, there's no burning or stinging.

What you need to do:

- 01 Issue (e-scribe) a prescription for the autologous serum eye drops (ASEDs) and for blood to be drawn.
- 02 Once the prescriptions have been received, the pharmacy will contact the patient and coordinate a blood draw by one of our phlebotomists. The blood draw and serum processing are done all in the same convenient location.
- 03 The patient's eye drops will be ready the same day of the blood draw, if taken at Sweetgrass. The pharmacy will contact the patient when the eye drops are ready for pickup.
- 04 If necessary, blood draws can be shipped to the pharmacy. Completed eye drops can be shipped to the patient and delivered in 1-2 days.

Dorzolamide (2%)
Bimatoprost (0.01%)
30 day supply

What sets us apart? Preservative-Free

- The repeated exposure to preservatives can exacerbate existing ocular surface issues or cause new ones.
- Preservative-free eye drops can help minimize side effects, improving comfort and potentially enhancing treatment adherence

Packaging:

- 10 dose strips for a 30 day supply
- Each strip is a 3 day supply
- Free shipping
